

Sound Management Group

The Sound Is Our Vision

Sound Bites

SMG solves noise problems worldwide backed by over 30 years of industry experience

Optimizing space acoustics can create more comfortable and efficient work and recreation environments

Sound Management Group creates solutions in the office, healthcare, professional, education and performing arts environments

Sound Delete™ Impressions offer unlimited customizable design options in a functional acoustic paneling situation. Any image can be digitally imprinted on the face of our Impressions panel to create a look that is one of a kind.

- Create a look that is completely unique to your space
- Photorealistic resolution image processing
- Acoustically absorptive, tackable, and reflective surfaces designed for your space

Recreate art or personal photography. Replicate advertising, corporate branding and identity or company logos. Framing options can further customize your design.

- Green product: SD Impressions is composed of over 80% post-consumer recycled content (LEED Platinum rating)
- Ships direct, easy installation (custom hanging options available)
- Framing options available

The Sound Is Our Vision

www.smg-corp.com

Webster defines Acoustics as: A science that deals with the production, control, transmission, reception, and effects of sound.

SMG also solves noise problems in the built environment by specifying and implementing soundproofing materials as well as Sound Shadow™ sound masking systems.

Human hearing is normally limited to frequencies between about 12 Hz and 20,000 Hz (20 kHz), although these limits are not definite. The upper limit generally decreases with age.

Custom & Easy!

- Upload your images or consult SMG's Design Team
- Decide on your panel sizes and quantities
- Installs easy for DIY or have our team professionally install your space's solution

Sound Delete™ Impressions

Specifications
